Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

Regarding claims 1-3, the allowability in combination with the other claimed features is because nowhere in the prior art is there a multi-layer capacitor having a recessed part of the metal electrode layers that is covered and flattened by the dielectric layers.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
